

# WE FUND YOUR PROJECT!

## TERMS AND CONDITIONS OF THE COMPETITION

### Goals

ABYNTEK RESEARCH REAGENTS is a brand of the highest quality bioreagents for oncology research, with a social commitment to the fight against cancer.

With more than 46,000 references of antibodies, proteins and ELISA/CLIA kits for the study of hundreds of biomarkers of different types of cancer, our commitment goes further by allocating resources to fund cancer research projects.

In this regard, ABYNTEK BIOPHARMA has launched a competition called "WE FUND YOUR PROJECT" to facilitate the work of researchers by providing up to 3,000€ in reagents per selected project.

### Candidates

In order to be eligible to participate in the competition, candidates must meet the following requirements:

- Be conducting a research project within the oncology area.
- Be a customer of the ABYNTEK RESEARCH REAGENTS brand at any time during the period beginning September 1, 2022 and ending March 31, 2023.
- Submit the application form published on the ABYNTEK BIOPHARMA website:  
<https://www.abyn tek.com/committed-to-the-fight-against-cancer/?lang=en> between September 1, 2022 and March 31, 2023.

### Project selection criteria

The following criteria will be taken into account when selecting the winning project: the novelty of the research work; the diversity of immunological techniques; the affinity with the philosophy and values of ABYNTEK BIOPHARMA; the social impact and the applicability of the results; the collaboration with other entities and research institutes; the participation in national and European projects; and the publications in prestigious scientific journals.

### Prize

The prize consists of the redemption of the amount invoiced on ABYNTEK RESEARCH REAGENTS products during the campaign period -from September 1, 2022 to March 31, 2023- with a maximum of 3,000€ to be spent on future purchases of ABYNTEK RESEARCH REAGENTS products from April 1 to December 31, 2023.

### Winner's Commitments

The winning project will be officially communicated on ABYNTEK BIOPHARMA website, social media, newsletters and other means of communication available.

ABYNTEK BIOPHARMA will have access to information regarding the development of the project and the results of the research; it will also collect information on the use of the products supplied by the company, which may be communicated by ABYNTEK BIOPHARMA in order to give visibility to the project and to the collaboration between the company and the research center.
